► FAIR ACCESS POLICY

INTRODUCTION

The Fair Access Policy (the Policy) seeks to address known barriers experienced by women, girls, trans and gender diverse people in accessing and using community sports infrastructure. The Policy aims to progressively build capacity and capabilities of Hepburn Shire Council in the identification and elimination of systemic causes of gender inequality in policy, programs, communications and delivery of services in relation to community sports infrastructure.

Hepburn Shire Council will undertake the necessary and proportionate steps towards implementation of the Fair Access Policy.

BACKGROUND

Sport is a highly visible and valued feature of Hepburn Shire Council's culture and identity. The sport and active recreation sector provides opportunities for enriching our communities through the promotion of respect and fair mindedness for all people, while also supporting the physical and mental wellbeing of all Victorians. Hepburn Shire Council is well positioned to design and implement place-based, integrated action plans that progress gender equality in community sport.

The Victorian Government is committed to developing an environment for all Victorians to live in a safe and equal society, have access to equal power, resources and opportunities, and are treated with dignity, respect and fairness. A reform agenda has been developed to change the systems that have perpetuated gender inequality by designing an enduring structure that requires implementation and tracking of progress over time.

This reform agenda includes addressing the traditional structures and way community sport and recreation organisations operate through the implementation all nine (9) recommendations from the 2015 Inquiry into Women and Girls in Sport and Active Recreation. This includes recommendation six (6):

"...encourage facility owners and managers to review access and usage policies to ensure women and girls have a fair share of access to the highest quality facilities at the best and most popular times."

and

"facilitating a universal adoption of policies, strategies and audit tools that will drive change further."

As a defined entity of the Gender Equality Act 2020, Hepburn Shire Council will be required from 31 March 2021 to conduct Gender Impact Assessments (GIA) on all new policies, programs, communications and services, including those up for review, which directly and significantly impact the public (Gender Equality Act 2020). The access and use of community sports infrastructure is an example of policy that has a direct and significant impact on the public.

STATEMENT OF INTENT

This Statement of Intent establishes the expectation that gender equality is considered and prioritised in all current and future Hepburn Shire Council's planning, policy, service delivery and practice as they relate to community sports infrastructure.

- a. Hepburn Shire Council recognises that gender equality is the attainment of equal rights, responsibilities and opportunities of women, men, trans and gender diverse people. Equality does not mean that women, men, trans and gender diverse people will become the same but that their rights, responsibilities and opportunities will not depend on their gender.
- b. Hepburn Shire Council recognises that gender equity is the provision of fairness and justice in the distribution of benefits and responsibilities based on gender. The concept recognises that people may have different needs and power related to their gender and these differences should be identified and addressed in a manner that rectifies gender related imbalances.

SCOPE

The Policy enables effective and efficient integration of the requirements of the *Gender Equality Act 2020*, the *Local Government Act 2020* and the *Public Health and Wellbeing Act 2008* and other legislative frameworks.

The scope of the Policy is to support Hepburn Shire Council to take positive action towards achieving gender equity in the access and usage of community sports infrastructure. This complies with the *Gender Equality Act 2020* and aligns with Municipal Public Health and Wellbeing Plans or Council Strategies:

► FAIR ACCESS POLICY

► FAIR ACCESS POLICY

Policy Framework

The Policy is designed to comply with the *Gender Equality Act 2020* and the wider Victorian Government gender equality strategy.

Hepburn Shire Council acknowledges:

- a. the disadvantaged position some individuals have had in the sport and recreation sector because of their gender; and
- b. that achieving gender equality will require diverse approaches for women, men, trans and gender diverse people to achieve similar outcomes for people of all genders.

Hepburn Shire Council will:

1. engage fairly and equitably with all staff, governance working groups, state sporting organisations, regional sport assemblies (where applicable) and members of our sport and recreation community, regardless of gender, cultural background and ability in a positive, respectful and constructive manner; and
2. engage in the process of gender impact assessments through an intersectional lens to assess any planned actions, including policies and communications. This is a strategy for making all voices, concerns and experiences an integral dimension of the design, implementation and monitoring of policies and programs.

Fair Access Principles

The Fair Access Principles have been developed by the Office for Women in Sport and Recreation, Sport and Recreation Victoria and VicHealth, in consultation from government and the state sport and recreation sector. This Policy and any resultant action plan are based on six (6) principles of inclusivity, full participation, equal representation, encouraging and supporting user groups and prioritising user groups committed to equality.

► FAIR ACCESS POLICY

Hepburn Shire Council considers that these principles provide clear direction, while also enabling adaption to the specific environment of Hepburn Shire Council's area.

► FAIR ACCESS POLICY

Compliance and Monitoring

a. Actions

Hepburn Shire Council commits to undertake a GIA on all current community sports infrastructure access and use policies and processes, and to consider opportunities to strengthen gender equitable access and use of community sports facilities in alignment with the Fair Access Principles.

If the process of assessing current policies and processes identifies opportunities to develop or strengthen gender equitable access and use of community sports facilities in alignment with the Fair Access Principles, Hepburn Shire Council commits to developing and adopting a locally relevant Fair Access Policy and action plan by 1 July 2024.

Hepburn Shire Council acknowledges that the requirement to have a gender equitable access and use policy and action plan (or equivalent) in place, and the ability to demonstrate progress against that policy and action plan (or equivalent), will form part of the eligibility criteria for Victorian Government funding programs relating to community sports infrastructure from 1 July 2024.
