

THE TRENTHAM PAVILION VISION

The Trentham Pavilion is an **integrated community-recreational heart** where athletes, club members, and the community come together to participate in the recreational offerings of the greater precinct, play or watch local sport and participate in nurturing and supportive programs. Characterised by its **relationship to the sport field** and to the **public facing areas of the site**, the architecture **respectfully responds** to the **suburban context**, while invoking the characteristics of a civic recreation facility, creating a **welcoming symbol** in the precinct.

CREATING A COMMUNITY FOCUSED FACILITY FOR ALL
